

Heading to the beach or rock pool this season?

Let's enjoy our beaches and rock pools COVID safely.

Please be mindful of your responsibility in shared areas by:

- Staying at home if you feel unwell - seek medical advice
- Keeping groups to a maximum of 20 people
- Not exceeding the maximum number of people permitted in rock pools

Maximum of 20
in a group

- Practise physical distancing by maintaining a **beach towel** length between your family group and others at all times:

- 1.5m while swimming
- 1.5m while entering or exiting the water
- 1.5m while waiting for amenities

- If you are **not** able to maintain distance, choose a less crowded location or a different time of day
- Practise good hygiene - wash and sanitise your hands
- A wet face mask can make it difficult to breathe, so take it off while swimming

Don't forget, when at the beach **ALWAYS** swim between the red and yellow flags.

If the lifeguards can't see you, they can't save you.
